Some even say that a man born in the year of the (③) should not marry a woman born in the year of the Dog.

Some Japanese believe that blood type effects personality. The blood type (④) of personality is a popular belief in Japan that a person's ABO blood type is predictive of their personality, temperament, and (⑤) with others. For example, an individual with blood type A is said to be diligent, even over-diligent, and sensible. On the other hand, a person with blood B is said to be cheerful and wild, but selfish. Additionally, blood types AB and O are still different. Though there is not a proven (⑥) between blood type and personality, asking about a blood type is (⑦) and it is often a surprise if a foreigner does not know his or her own (⑧).

In other cultures, some say that astrological sign (⑨) personality. This system is related to data of birth. There are twelve groups.

Even among those who do not believe any of the theories, many enjoy (⑩) and predicting personality based on these theories.
