III. 次の英文を精読し、下記の設問に答えよ。

A recent survey showed some interesting facts about Japanese tourist going overseas. Most tourists take two hundred forty thousand yen with them when they travel, but they only spend about half of this amount. This is all spending money, because most tour arrangements, hotel bills and transportation fees are paid before leaving Japan.

People traveling to America spend a lot of money on souvenirs, but tourist to Australia spend the most money on souvenirs. Maybe Australian souvenirs are more attractive, or more expensive, than those in America.

A few years ago, most tourists thought that the one thing that they must carry overseas with them would be "UMEBOSHI." Now, the one thing tourists feel they must have is a small digital camera. No one is sure why tourists have changed from UMEBOSHI to a digital camera.
